FLEXIBLE STAGE-GATE PROCESSES, BUILT-IN

The stage gate process in GenSight is configured to your process needs. You can operate a range of different processes and templates within your product pipeline to cater for different project types and business unit needs. Importantly, for large enterprise deployments, you can freely mix and match processes to support a diverse range of projects.

GenSight is fully stage-gate certified – an independent assessment led by Dr Robert Cooper, the creator of the stage-gate methodology. GenSight scored 100% on all 220 criteria. The full feature set of GenSight is extensive and impressive.

Trusted - GenSight is trusted by many of the world's biggest and best innovators. Around 20 global product launches everyday use GenSight.

Leader - We have a 25 year track record of success. Building the platform, delivering award winning solutions, supporting our clients.

Available - Cloud or On-Premise. From 20 users to 5,000+. Fully configurable, easy to use. Flexible, rich user experience
